Ahh... Saturday Mornings, one of the best times of the week, for sure. Especially when this beauty walks in at breakfast...

As soon as I lay eyes on her, I start thinking of ways to have some fun... this power is addictive. Hell, part of me thinks its bad for me...

Alright, then: **Sleepytime**
Deep, deep down for me...
Remembering how good it is...
Nice and deep under for me...
You are mine. Your hands are bound above your head...
Now come to gently, and be ready to obey...

What power? Oh, well, see; we've been experimenting with some hypnosis, and turns out she **loves** going under for me... such a Good Girl...

Huh? Oh, you're doing it again... A-aren't you...?
Mhmm. I want you to remember how good it felt
To... to obey you?
Yes, And to please me
To please you...
Time for a sexy show, don't you think?
I... can't say no, can I?
Nope - **Release**

So, is it wrong to start toying with her? Especially if part of her loves it? Can't do any harm in our place at least, surely...?

If I'd have known this was what you had in mind...
You knew exactly what I had in mind, lover
Good to know we're both loving this...
I don't need hypnosis to enjoy turning you on...
I love that hungry look in your eye... even with total control, oh you want this badly, don't you...?

Besides, you could argue it was just prompting what we were going to do anyway... and we both love that anyway...

So, just like last night?
In that case... I'd better be a Good Girl...
And call you **sir**...
Hnng...
You love your Good Girl stripping just for you, don't you, sir? Here just to please you...

Some days I forget what a great tease she is. Being together this long lets you know the others body like your own, their wants like instinct...

I'm going to love building her up, teasing her in my own way, and I'm going to make her beg for it. Beg and moan like the pleasure pet she is...

Alright, lose the clothes
Ha! I haven't even got to playing with my chest yet...
I said-
... just like this, sir...
Now, or I swear to god I will trigger you 'till you don't remember your own name...

But first, she needs to learn to obey, or maybe she wants me to make her... either way, we're both coming of this with a win...

But I'm going to make sure it's a win where I'm in charge. Time for the best parts...

As much as I'm enjoying this, she's having a bit too much fun teasing me - time to remind her who is in control around here...

Hah! As if I'd stop at just one or two. Once she's started going under more easily, I'm going to make sure I have full control

Now that's better, no sass
No, Sir, no sass, just obedience
Hmm·· You know what, I prefer 'Master', Slave·
Yes, Master
Now, to the bedroom, Pleasure Pet
Yes, Master, whatever you wish...

Now if you excuse me, I have duties I need to attend to in the bedroom - it's going to be a fun Saturday ;)
